INTRO

Once upon a time, there was a geologist that just had enough of rocks and so decided to leave it all behind and start "rocking" wider horizons. One day after he finished his Master's degree, he packed everything he could fit in his backpack, bought a one-way ticket to London and left in search of a new adventure. "\n" It was an amazing experience, but he still felt the need to find something he could be passionate about that would allow him to leave his mark behind. Thus comes a new journey: the creative power of programming. And again without looking back, he just went for it and applied for an intensive fullstack bootcamp. "\n" Currently he is mighty glad he did so: In it, he managed to find the professional passion he was looking for.

EXPERIENCE

SOFTWARE DEVELOPER - BOLD

BOLD, Lisbon | FEV 2021 - PRESENT

I'm currently working on a project for the group Crédit Agricole, and my daily tasks include technical analysis and development of an application for the banking area. The technological stake is mainly Java.

ONLINE DEVELOPER - CELFOCUS

Celfocus, Lisbon | JAN 2018 - DEZ 2020

The two main projects that I worked on at Celfocus included mainly the technological stacks of Java Groovy, Hibernate, Oracle Database, and using MVC, for a project at Vodafone UK, and using javaScript with VueJs for Adobe Experience Manager in a project for Vodafone PT, building their current eShop. The work methodology for both projects was agile.

EDUCATION

<CODE CADET> @ <ACADEMIA DE CÓDIGO_>

Lisbon | 2017

A 14-week intensive && immersive Java && JavaScript full stack coding bootcamp.

MASTER IN PETROLEUM GEOLOGY

University of Coimbra | 2013 - 2015

Master degree in geology - specialization in petroleum.
